ADMINISTRATIVE OVERVIEW

PacifiCorp
Deer Creek Mine
C/015/0018

January 20, 2016

Background

The original permit for the Deer Creek Mine was issued February 7, 1986 for approximately 14,620 acres. The mining plan for Federal leases SL-064607, SL-064621, SL-064900, SL-070645, U-1358, U-02292, U-084923, U-084924, U-083066, U-040151, U-044025, U-014275, U-024319, and U-47979 was approved on October 11, 1985 for the Deer Creek Mine. A Waste Rock Storage Facility was added September 1988. The permit was successively renewed on February 7, 1991, 1996, 2001, 2006 and 2011. A reclamation surety bond in the amount of \$3,374,000 is currently posted for reclamation at the Deer Creek Mine.

The January 8, 1993 mining plan approval (IBC-1) added 120 acres of coal (80 acres in a portion of Lease No. U-47977 and 40 acres in a portion of Lease No. SL-050862). The July 22, 1993 mining plan approval (IBC-2) added 160 acres (80 acres in a portion of Lease U-47977 and 80 acres in a portion of Lease SL-050862).

PacifiCorp submitted on June 27, 1994 as an incidental boundary change (IBC-3) to include development mining only in U-06039, U-47977, and SL-050862 (approximately 100,000 tons). Included in the revised application was longwall mining the Second, Third and Fourth East panels and development mining in the Third North Mains and the Sixth East Gate. Longwall mining proceeded in areas that were previously approved as incidental boundary changes with mining plan approval dates of January 8, 1993 (IBC-1) and July 22, 1993 (IBC-2). Entry development mining in the Third North Mains and the Sixth East Gates entailed about 40 acres beyond the currently approved permit boundary in Leases U-06039, U-47977 and SL-050862. IBC-3 was approved July 28, 1994.

The surface facilities associated with the Rilda Canyon Lease extension (fan) were approved as a significant revision to the Deer Creek Mine permit on July 31, 1995.

PacifiCorp submitted an application for the North Rilda Area (which included Federal Leases U-24317, U-2810, U-06039, SL-051221 and fee coal), for a total of 1960 acres on February 4, 1997. This application was approved on July 15, 1997, which brought the total permitted area of the Deer Creek Mine to approximately 18,706 acres.

In order to access the Mill Fork lease, PacifiCorp acquired a lease modification to lease U-06039. This modification, consisting of 65.7 acres, was added to the Deer Creek permit on

August 14, 2002 as an incidental boundary change.

PacifiCorp submitted an application for the Mill Fork Lease (State Lease ML-48258), to the Division of Oil, Gas and Mining on October 29, 2001. The coal tract as described in the lease contains 5,562.82 acres, more or less. This represented about 64 million tons of minable coal to be produced over the life of the mine in this area. Approval on March 5, 2003 for mining in the SITLA Mill Fork lease added 5,562.82 acres to the Deer Creek Mine. This mining is conducted in the Blind Canyon and Hiawatha seams. No mining plan approval was required due to the lease exchange agreement associated with the creation of the Grand Staircase-Escalante National Monument.

The application to add facilities in Rilda Canyon for the Deer Creek Mine was submitted on November 4, 2003. This proposal was withdrawn on December 9, 2004. A new plan was resubmitted on December 21, 2004 and was determined administratively complete on January 28, 2005. No comments were received.

The Title V review team met with PacifiCorp on March 26, 2005 and PacifiCorp resubmitted on April 1, 2005. The Division review was sent on May 10, 2005 and a response was received on June 2 and 13, 2005. The state permit was issued on July 27, 2005.

A letter of concurrence was signed by the Forest Service for the mining plan approval on December 1, 2005 and the mining plan was signed by the Department of Interior Assistant Secretary of Lands and Minerals on December 21, 2005.

On June 1, 2006 PacifiCorp submitted an amendment to include the Mill Fork West Extension Tract LBA/Federal Lease UTU-84285 to the Deer Creek Mine permit boundary. This lease tract for 213.57 acres was issued by the Bureau of Land Management on November 1, 2006. The proposal to add 213.57 acres was approved by the Division on January 19, 2007 and received federal mine plan approval on March 22, 2007. This brought the total mine acreage to approximately 19,937 acres.

The Division was notified in a letter from Kenneth Fleck dated April 6, 2015 that the Deer Creek Mine was being permanently closed. The mine is now in the reclamation phase.

PacifiCorp made application to the Division of Oil, Gas and Mining for a five-year permit renewal for the Deer Creek Mine on November 10, 2015.

The renewal application encompasses the same area as currently permitted and proposes to renew the permit for an additional 5 year term.

Public Notice

The renewal application was determined administratively complete November 20, 2015. Public notice for this permit renewal was published in the Emery County Progress on November 17, 24, and December 1 and 8, 2015. The comment period ended on January 7, 2016 with no comments received.

Recommendation for Approval

The Division made the decision on January 20, 2016 to approve the permit renewal for five years based on the fact that:

1. The terms and conditions of the existing permit are being satisfactorily met. The mining and reclamation plan was initially approved by the Division on February 7, 1986. All requisite updates have been submitted, analyzed and approved by the Division to demonstrate that PacifiCorp's Deer Creek Mine mining and reclamation plan meets the regulatory requirements of the State Program.
2. The present coal mining and reclamation operations are in compliance with the environmental protection standards of the State Program. Monthly compliance inspections have confirmed that the environmental protection standards of the State Program are being met. There are no outstanding violations at this mine site.
3. The renewal does not substantially jeopardize the operator's continuing ability to comply with the State Program on existing permit areas. There are no permit conditions or regulatory requirements that would affect PacifiCorp's ability to continue to operate on the existing permit area.
4. The operator has provided evidence of having liability insurance and a performance bond that will be in effect for the operation and will continue in full force and effect.
5. The permit is conditioned with the requirement:
PacifiCorp will submit water quality data for the Deer Creek Mine in an electronic format through the Electronic Data Input web site, <http://linux3.ogm.utah.gov/cgi-bin/appx-ogm.cgi>

Permit eligibility determinations are made by the regulatory authority with jurisdiction over the permit application not by the AVS. Results which display outstanding violations may not include critical information about settlements or other conditions that affect permit eligibility. Consult the AVS Office at 800-643-9748 for verification of information prior to making decisions on these results.
